

農学国際教育研究センター 2023年度 第5回オープンセミナー

ICREA 5th Open Seminar in AY2023

2023. **12.19** (Tue) 14:45 – 16:15

熱帯作物の環境生理

Environmental Physiology of Tropical Crops

樋口 浩和 教授

京都大学農学研究科 熱帯農業生態学分野

Professor Hirokazu Higuchi

Graduate School of Agriculture, Kyoto University

- 言語 : 英語
 - 開催形式 : 対面×オンライン
- QRコードより事前にお申し込みください。
会場 : 名古屋大学農学部第11講義室

Registration
参加登録

- Language : English
 - How to participate: On-site ×Online
- Please apply in advance for the participation through QR code.
Venue: Lecture Room No.11,
School of Agricultural Sciences, Nagoya University

Various environmental stresses in the tropics are discussed, and those are related to tropical crop production. Crop responses to environmental stresses, such as drought, strong irradiance, and high temperature, are described, mainly at the organ level. Agricultural adaptations to each stress and mechanisms are explained. This seminar aims to provide a basic understanding of the mechanisms of various environmental stresses in crops and their adaptation, as well as the interpretation of various problems caused by environmental stresses in agriculture.
